About the city of Sofia

Sofia is the *capital and largest city* of *Bulgaria* and 14th largest city in EU. It is situated in the *Sofia Valley* at the foot of the *Vitosha* mountain. Known as *Serdica* in *antiquity* and *Sredets* in the *Middle Ages*, Sofia has been an area of *human habitation* since at least 7000 BC. The recorded history of the city begins with the attestation of the conquest of *Serdica* by the *Roman Republic* in 29 BC from the *Celtic* tribe *Serdi*. In 809, *Serdica* was incorporated into the *Bulgarian Empire* and became known as *Sredets*. In 1018, the *Byzantines* ended *Bulgarian* rule until 1194, when it was reincorporated by the *reborn Bulgarian Empire*. *Sredets* became a major administrative, economic, cultural and literary hub until its conquest by the *Ottomans* in 1382. *Bulgarian* rule was restored in 1878 and *Sofia* was selected as the capital of the *Third Bulgarian State* in the next years, ushering a period of intense demographic and economic growth.

Being Bulgaria's primary city, Sofia is home of many of the major local universities, cultural institutions and commercial companies. The city has been described as the "triangle of religious tolerance". This is because three temples of three major world religion Christianity, Islam and Judaism are situated close together: Sveta Nedelya Church, Banya Bashi Mosque and Sofia Synagogue. This triangle was recently expanded to a "square" and includes the Catholic Cathedral of St Joseph.
